

VICTOR NDUNDA

AI-Driven Strategic Analyst | Multi-Agent Systems Engineer | Financial Data Expert

📍 Nairobi, Kenya | 📞 0724346971 | ✉️ torv54@gmail.com 🔗 Portfolio | 🔗 GitHub | 🔗 LinkedIn

PROFESSIONAL SUMMARY

Multi-disciplinary Technology Professional with a unique intersection of **Computer Science, Data Analytics, and Geopolitical Intelligence**. Expert in designing and deploying **multi-agent AI systems** (IntelliFlow) to automate complex financial and strategic analysis. Proven track record in delivering data-driven insights for regulatory bodies and financial institutions, combined with deep OSINT research capabilities focused on African security dynamics.

CORE COMPETENCIES

- AI & Automation:** Multi-Agent Systems, Autonomous AI Pipelines, Google ADK, Gemini 2.5 Pro.
- Data Analytics:** SQL, Python (Pandas, NumPy, Scikit-learn), Financial Modeling, Statistical Analysis.
- Business Intelligence:** Google Looker Studio, Power Query, Excel Automation, Tableau.
- Strategic Intelligence:** OSINT Research, Geopolitical Risk Assessment, African Security Analysis.
- Engineering:** AWS (EC2, Lambda, RDS), PostgreSQL, Firebase, React, Node.js.

PROFESSIONAL EXPERIENCE

Freelance AI & Data Consultant | Self-Employed

Nairobi, Kenya | 2024 – Present

- AI-Driven Analytics:** Developed and deployed **IntelliFlow**, a proprietary multi-agent platform that automates 10-K financial statement analysis and strategic forecasting.
- Financial Consulting:** Delivered 15+ high-value projects including Cost-Benefit Analysis and Risk Financing reports for corporate clients.

- **Process Optimization:** Designed Business Process Re-engineering (BPR) frameworks that reduced operational bottlenecks by 30% through automated reporting.

Research Assistant | Retirement Benefits Authority (RBA)

Nairobi, Kenya

- **Strategic Research:** Led data-intensive initiatives on regulatory trends and macroeconomic implications within the retirement sector.
- **Big Data Analysis:** Processed datasets exceeding 10,000 records to generate evidence-based policy recommendations for senior leadership.
- **Automation:** Built financial dashboards using Power Query, reducing manual reporting time by 40%.

Financial Analyst | Enwealth Financial Services

Nairobi, Kenya

- **Investment Intelligence:** Developed real-time financial dashboards for investment strategy analysis and tracking.
 - **Statistical Modeling:** Applied advanced statistical techniques to inform institutional investment decisions and risk assessments.
-

KEY PROJECTS

IntelliFlow: Multi-Agent Data Analysis Platform

- **Architected** a sophisticated system leveraging autonomous AI agents for sentiment analysis, anomaly detection, and strategic forecasting.
- **Integrated** real-time data pipelines with predictive modeling to provide actionable financial insights.
- **Link:** github.com/gadda00/IntelliFlow

Defence Africa: Strategic Intelligence Platform

- **Developed** a strategic intelligence site focused on China-Africa security dynamics and military doctrine.
- **Implemented** OSINT gathering workflows to monitor and analyze geopolitical risks across the continent.

- **Link:** github.com/gadda00/defence-africa-site
-

EDUCATION

Bachelor of Science in Computer Science University of Embu, Kenya

CERTIFICATIONS & TRAINING

- **Corporate Finance Institute (CFI):** Financial Modeling & Valuation Analyst (In Progress)
 - **Analytics Vidhya:** Advanced AI/ML Projects and Tutorials
 - **Advanced Data Tools:** Google Looker Studio, Power Query, AWS Cloud Practitioner
-

LANGUAGES

- **English:** Fluent
- **Swahili:** Fluent
